[Study on textured upholstery]

[Author] ([year]). [Journal]. Sample document from the design package.

It is a placeholder, not a real paper, so try highlighting it freely.

1. Introduction

[Background: perceived softness is not the same as measured hardness.]

2. Method

[Method: [n] participants, blind touch comparison, randomised order.]

3. Results

[Passage: participants rated the textured sample as softer than the smooth one at the same measured hardness.]

4. Limitations

[Limitation: only one fabric family was tested.]
